Huge 3,900+ CFM Premium Filter with 6" Flange

Maximum Flow from Airaid!

If you're looking for more airflow than you'll ever need and outstanding filtration, then this is the filter for you. AIRAID introduces their **HUGE Premium Air Filter** rated at over **3,900 CFM** with deep pleats to capture more dirt and debris! The filter is **12" high** with a huge **6" flange** in either oiled or non-oiled filtration technology. Each filter also comes with a specially designed threaded endcap for added support. This filter is perfect for those looking for **MASSIVE AIRFLOW**.

Also available is Airaid's **6" UBI**, these one-piece moldings consist of multiple angles and straights with thousands of intake possibilities! Available as tubes only, or as master kits, which include; premium filter, couplers, clamps, brackets and hardware. Build your own custom Airaid intake system.

Create Your Own System!

Threaded Endcap Support

1" Ribbed Flange Height
