## Titan MISSILE!

AIRAIID once again proves to be your one-stop source for performance air intake systems with the release of the new MXP Series intake for the 04-11 Nissan Titan, Armada, and 04-10 Infiniti QX-56. That's right, one part number covers three truck and SUV applications! Best of all, this system nets 18 additional horsepower and 24-lb-ft of torque!

The Nissan 5.6L engine is a proven and well-respected power plant, but just like any engine it can benefit from cold, clean, and efficient air charge. AIRAIID's new MXP Series intake system includes a new roto-molded air box that replaces the factory's restrictive design. Blade style weatherstripping installed on the air box seals against the hood, keeping hot engine compartment air away from the filter. A new roto-molded intake tube with a built-in velocity stack is also included to further promote airflow. This system features a massive 1700cfm air filter that is available with either oiled SynthaFlow® or non-oiled SynthaMax® material. Both filter styles are washable and reusable. Stainless steel clamps and related hardware make this one of the highest quality intake systems on the market today.

This system utilizes all of the OE attachment points and installs in minutes using common hand tools. Like the rest of AIRAIID's product line, this new MXP Series intake system is backed by the company's "No Hassle" Warranty.

Maximize your profits with AIRAIID and update your database today!

**In Stock, Ready to Ship!**

**HUGE 1700 CFM Filter For Greater Flow!**

**oiled 520-284\*    non-oiled 521-284\***

\*Not legal for sale or highway use in California and some other states.

- ◀ **One Part Number, Three Applications**
- ◀ **Oiled & Non-Oiled Filtration Technology**
- ◀ **100% Easy Bolt-On Installation**
